**THE CANADIAN WHEAT BOARD, LORNE HEHN,

Respondents.

REASONS FOR ORDER

GILES, A.S.P.:

I have today taxed costs in this matter. No representations were made by Jim Pallister as to the amounts claimed by the respondents but, he did indicate a wish to challenge the order striking the application for judicial review, and to challenge the jurisdiction of a prothonotary to award costs under Rule 1618.

None of such matters could properly be raised on this taxation nor disposed of by me, and I sought and obtained the undertaking of the counsel for the Wheat Board, not to issue execution on the taxation for 30 days, to allow Mr. Pallister to take such steps as he might be advised to set aside the original order striking and awarding costs. I give these reasons for the purpose of recording the undertaking.
